## ATKOMATIC Solenoid Valves

Heavy-duty Process Solenoid Valves for Clean Air, Gases, Liquids, Steam, Corrosive Fluids & Cryogenic Fluids

atkomatic solenoid

### Overview of Product Line

#### General

- Solenoid valves to meet a wide variety of industrial applications
- 2 position, 2-way valves (one 3-Way valve)
- Most are globe style valves with piston poppets (some barstock direct lift)
- Gravity close, with spring and fluid pressure assist
- Most are in-line mounted full ported using pipe threads
- Many are available either normally open or normally closed
- Built to handle all types of clean fluid including air, water, oil, steam, cryogenics, fuels, caustics, refrigerants, and solvents

#### Performance Ranges

- Pressure: vacuum to 10,000 psi (690 bar)
- Fluid temperatures: -423° F (-253° C) to +500° F (+260° C) [+750° F (+399° C) some models]
- Pipe sizes from 1/8" to 3" (Cv from 0.02 to 71)

#### Materials of Construction

- 316 stainless steel & naval bronze or brass
- Seat material selection:
  - Elastomer: Buna N, Viton®, EPR
  - Plastic: PTFE, PCTFE
  - Metal: stainless, brass

All plunger and magnetic stop materials are electroless nickel-plated 416 or 430 stainless steels. Some AC valves have shading rings made of silver or copper. See [page 21 of the Atkomatic Technical Manual](#) for details

#### Actuators

- Solenoids rated for continuous duty (operational pressure values for normally open valves are based on intermittent duty only)
- Class H and class B available
- Available with NEMA
  - Type 1 housing: standard
  - Type 4 housings: waterproof
  - Type 7 and 9 housings: explosion-proof for hazardous locations

### Circle Seal Controls

2301 Wardlow Circle • P.O. Box 3300 • Corona, CA 92880
